**Subject- Immediate monetary relief to Street Vendors.**

Dear Sir,

The Street Vendors have been facing severe hardship ever since last year lockdown. Even though lockdown was lifted last year the street vendors particularly weekly market vendors were allowed to come back in a staggered manner leading to further disruption of their livelihood.

Second phase of Covid has added to their difficulties as severe restrictions were enforced on their livelihood. Amid fear of extended lockdown and prolonged curfew we demand the following-

- a) Efforts should be made for minimum disruption of their livelihood.
- b) Food Vendors should be included in essential services like vegetables and fruit vendors .
- c) 6000 INR per month should be provided to all the surveyed vendors till their livelihood is restored.

Thanking you
